The product is TWP (Total Wood Protection), and there are two colors mixed half-and-half: 203 Gold and 207 Butternut Brown. [Click here for info.](#)

It's not available at any of the big-box stores. It's purchased from a small business called MFG Sealants (www.woodsealants.com). Pretty expensive: about \$35/gallon (and minimum purchase would be two gallons, since it has to be mixed half-and-half).
